

# Database Importer af data 2.HF

It & Data, Odense

# Masser af data via Excel ark

## Mini-guide:

1. Opret eventuelt en tabel først (kan undlades).
2. Højre-klik på databasen -> Tasks -> Import data.
3. Data source = Excel ark (2007) -> Browse for at lokalisere fil (tjek "First row has column names" hvis det er sandt).

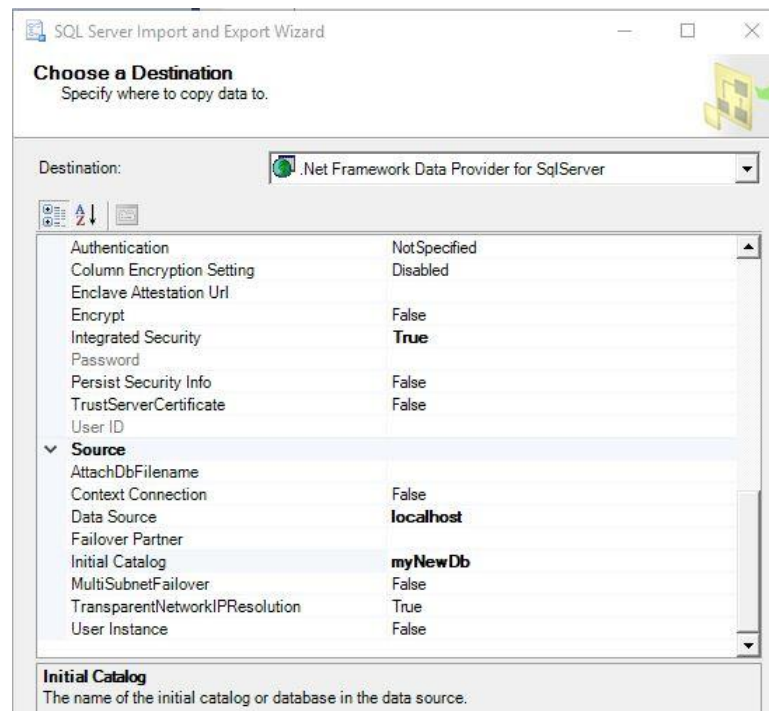

# Masser af data via Excel ark

Forsættelse på mini-guide:

## 4. Destination = SqlServer

- Integrated Security = True
- Data source = localhost (127.0.0.1)
- Initial catalog = Navnet på din database.

## 5. Tjek "Copy data from one or more tables or views"

# Masser af data via Excel ark

6. Destination: Vælg korrekt tabel eller opret en ny.

- Edit mappings: Tjek at formaterne er korrekte (INT, VARCHAR osv.)

Source: 'Company\$'  
Destination: "dbo"."company2"

☐ Create destination table   
☐ Delete rows in destination table ☐ Drop and re-create destination table  
☒ Append rows to the destination table ☐ Enable identity insert

Mappings:

Source	Destination	Type	Nullable	Size	Precision	Scale
id	<ignore>					
first_name	first_name	nvarchar	<input checked="" type="checkbox"/>	100		
last_name	last_name	nvarchar	<input checked="" type="checkbox"/>	100		
company_name	company_name	nvarchar	<input checked="" type="checkbox"/>	250		
address	address	nvarchar	<input checked="" type="checkbox"/>	100		
city	city	nvarchar	<input checked="" type="checkbox"/>	100		
county	county	nvarchar	<input checked="" type="checkbox"/>	30		
state	states	nvarchar	<input checked="" type="checkbox"/>	3		
post	post	nvarchar	<input checked="" type="checkbox"/>	15		
phone1	phone1	nvarchar	<input checked="" type="checkbox"/>	12		
phone2	phone2	nvarchar	<input checked="" type="checkbox"/>	12		
email	email	nvarchar	<input checked="" type="checkbox"/>	100		
web	web	nvarchar	<input checked="" type="checkbox"/>	100		

Source column: id Double (15)

SQL Server Import and Export Wizard

**Specify Table Copy or Query**  
Specify whether to copy one or more tables and views or to copy the results of a query from the data source.

☒ **Copy data from one or more tables or views**  
Use this option to copy all the data from the existing tables or views in the source database.

Evt. preview source

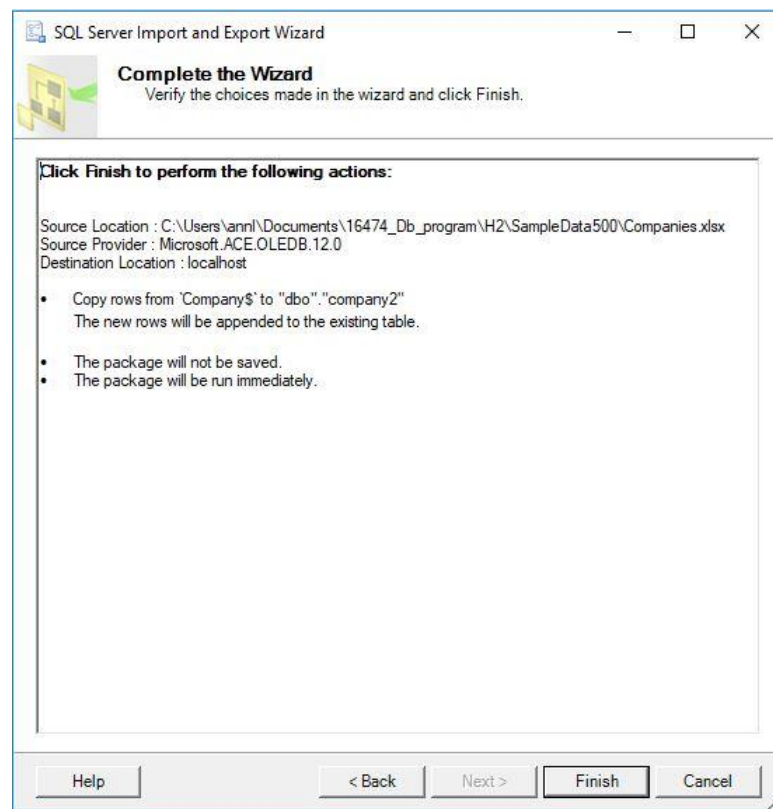

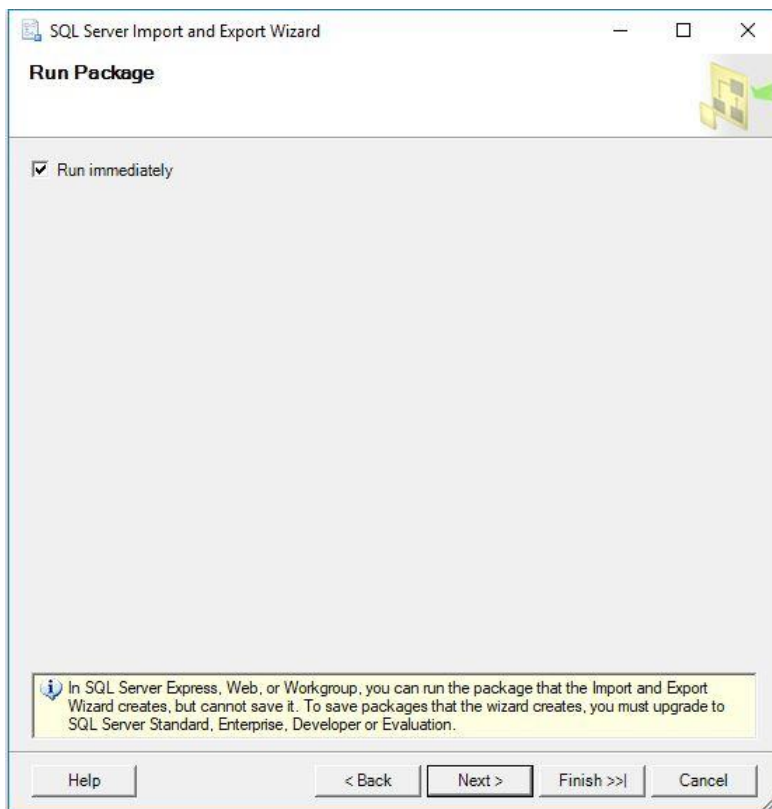

Preview Data

Source: `SELECT * FROM 'Company$'`
